

PRESENTATION PROBLEMS — CALCULUS III

last update: November 6, 2013

Note that the problem numbers that appear in the table are textbook numbers, not WeBWorK problem numbers. Asterisks * indicate more conceptual problems. A successful presentation of a starred problem will involve much more *explanation* than *calculation*. Some problems depend on other presentation problems. For example 12.5.60 relies on the result of 12.5.56. This is indicated by parenthetical remarks.

*All presentations must be done
in groups of 2 or 3, except by special request.*

<i>Date presented</i>	<i>Problem number</i>	<i>Presenter</i>
September 27	14.1.38	Tasha, Chelsea, and Kendra
	14.1.40–43	
TBD	12.2.53 (after ch. 13)	Sam, John, and Martin
September 27	12.3.48	Pragna
September 27	12.3.78	Alex, Angelica, and Hannah
September 27	12.3.91*	Ruth, Colton, Conner, and Emanuil
October 4	12.3.92 (after 91)	Matt, Danny, and Mike
September 27	12.4.54ab	Jacob, Will, and Dallas
September 27	12.5.55	Shelby and Josh
	12.5.56*	
	12.5.60 (after 56 & ch. 13)	
	12.5.61	
October 4	14.2.31	Thomas, Emily, Emilee
	14.2.32	Matt and Kendra
	14.2.33*	
	14.2.35	
October 14	14.3.53*	Alex and Angelica
	14.3.63	
October 30	14.3.64	John and Pragna
November 15	14.3.74*	John and Pragna
November 15	14.3.79cd	John and Pragna
October 4	14.3.80*	Gabe
	14.3.84*	
October 30	14.4.37	John and Pragna
October 18	14.4.39	Mike and Matt
	14.4.45	
October 14	14.5.50,52,53	Ruth, Emanuil, Colton, and Conner
	14.5.54,55	
	14.5.60*	
	14.5.67*	
	14.5.68*	
	14.5.72*	
TBA	14.6.39	Colton, Emanuil, and Conner
	14.6.44	
	14.7.24
