

# PRESENTATION PROBLEMS — CALCULUS III

last update: October 4, 2013

Note that the problem numbers that appear in the table are textbook numbers, not WeBWorK problem numbers. Asterisks \* indicate more conceptual problems. A successful presentation of a starred problem will involve much more *explanation* than *calculation*. Some problems depend on other presentation problems. For example 12.5.60 relies on the result of 12.5.56. This is indicated by parenthetical remarks.

*After September 26, all presentations must be done in groups of 2 or 3, except by special request.*

<i>Problem number</i>	<i>Date presented</i>	<i>Presenter</i>
September 27	14.1.38	Tasha, Chelsea, and Kendra
	14.1.40–43	
	12.2.53 (after ch. 13)	Sam, John, and Martin
September 27	12.3.48	Pragna
September 27	12.3.78	Alex, Angelica, and Hannah
September 27	12.3.91*	Ruth, Colton, Conner, and Emanuil
October 4	12.3.92 (after 91)	Matt, Danny, and Mike
September 27	12.4.54ab	Jacob, Will, and Dallas
September 27	12.5.55	Shelby and Josh
	12.5.56*	
	12.5.60 (after 56 & ch. 13)	
	12.5.61	
October 4	14.2.31	Thomas, Emily, Emilee
	14.2.32	
	14.2.33*	
	14.2.35	
	14.3.53*	
	14.3.63	
	14.3.64	
	14.3.74*	
	14.3.79cd	
October 4	14.3.80*	Gabe
	14.3.84*	
	14.4.37	
	14.4.39	
	14.4.45	
	14.5.50,52,53	
	14.5.54,55	
	14.5.60*	
	14.5.67*	
	14.5.68*	
	14.5.72*
