

PRESENTATION PROBLEMS — CALCULUS III

last update: November 26, 2012

Note that the problem numbers that appear in the table are textbook numbers, not WeBWorK problem numbers. Asterisks * indicate more conceptual problems. A successful presentation of a starred problem will involve much more *explanation* than *calculation*. Daggers † indicate problems that were not part of any WeBWorK assignment. Some problems depend on other presentation problems. For example 12.5.60 relies on the result of 12.5.56. This is indicated by parenthetical remarks.

You may notice many more dagger problems starting with Section 13.4. As we progress further through the course, there will be more and more interesting problems that are unsuitable for WeBWorK. Some of these will become presentation problems, and some will be assigned as traditional paper-and-pencil homework.

After September 26, all presentations must be done in groups of 2 or 3, except by special request.

<i>Problem number</i>	<i>Date presented</i>	<i>Presenter</i>
13.4.70 ^{†*}		Cynthia, Hailey
13.4.71 ^{†*} (after 70)		Derek, Josh
13.5.24 [†]		Tierra, Blair, Kylee
14.3.53 ^{†*}		Chanse, Lucas, Max
14.3.74 ^{†*}		Allie, Allison
14.3.79cd [†] , 14.3.80 ^{†*}		Michael M. and ???
14.4.39 [†]		Darsh, Miguel
14.4.45 [†]		Aurora, Alethea
14.5.50,52,53 [†]		Aurora, Alethea
14.5.54,55 [†]		Darsh, Miguel
14.5.60 ^{†*}		Darsh, Miguel
14.5.68 ^{†*} (after 67)		
14.7.24		Allie, Allison
14.7.28		Michael M., Alethea, Aurora?
14.7.37		Michael M., Alethea, Aurora?
14.7.33		Michael M., Alethea, Aurora?
14.7.49		Michael M., Alethea, Aurora?
15.1.12		
15.1.44		
15.1.45		
15.1.46		
15.1.47		
15.1.48		
15.2.26		
15.2.28		
15.2.59		
15.2.60		
15.3.24		
15.3.26
